

Why CalVans?

Save money. CalVans riders save about \$1500 a year compared to the cost of driving their own vehicles.

No credit checks or long-term commitments. If you need to return the van, you pay only for the days you used it.

Save time. Each vanpool sets its own schedule and route, ensuring your ride is always ready when you are.

Relax and enjoy the ride. CalVans handles all routine maintenance on-site, and if your van needs more extensive work we'll give you a loaner van.

Save wear and tear on your personal vehicle by putting your commuter miles on a CalVans van.

Go green. Vanpooling is an ideal way to reduce your carbon footprint.

Public Vanpools Leading the Way

At CalVans, these are the words we live by. As a California public transit agency, we designed CalVans to be economically self-sustaining. So while other vanpool providers are driven by profits, CalVans provides late-model vans at lower prices without sacrificing first-rate customer service.

At CalVans we take our leadership role seriously, too. Since our founding in 2001, CalVans has grown to include more than 400 vanpools operating in counties throughout California. Visit our website to learn more.

Share the ride in a CalVans vanpool!

You'll save money, avoid wear and tear on your own car, reduce traffic congestion and help improve air quality.

Great rates

If you're making sacrifices just to get by each month, vanpooling provides an easy way to stretch your budget. Why give up something when you can save as much as \$1500 simply by commuting to work or school in a CalVans vanpool?

Reliable, late-model vehicles

Have you ever had a perfectly good morning ruined by a car that won't start? With CalVans, car trouble will never keep you from getting to work or school. Simply call CalVans and we will immediately bring out another van. And all routine maintenance is done on-site, so your van is always ready to go.

No credit checks

CalVans' streamlined sign-up process is designed to simplify your commute. Qualifying to be a driver is a two-step process: we'll check your driving record, and ask you to get a physical to ensure you're healthy enough to drive yourself and others. If you prefer to be a passenger, our website offers a variety of tools to help you find a ride.

No long-term commitments

We know life can be unpredictable. For that reason, CalVans does not require you to sign a long-term contract. If you need to return the van, you pay only for the days you used it.

Commuters

Simply getting to work every day shouldn't be a job. Take it easy in a vanpool. The cost per ride can average as little as \$2 per day. And you may qualify for government subsidies. It's easy to join a vanpool, or you can start up a new one. Relax and enjoy the ride.

Employers

CalVans takes care of your transportation issues so you can take care of your business. With today's strong emphasis on reducing greenhouse emissions, employers look to CalVans as the free and easy way to promote ridesharing and reduce workdays lost due to transportation issues.

Students

If the term "starving college student" applies to you, imagine an extra \$1500 in your pocket. That's the average savings you can expect in a year of vanpooling. Put yourself behind the wheel of a late-model air-conditioned van, and leave the car payments to us.
