*Public Vanpools Leading The Way*

June 4, 2014

Jeff Webster  
General Manager, Fresno County Rural Transit Agency  
2035 Tulare Street, Suite 201  
Fresno, CA 93721-2004

Dear Jeff,

I am pleased to report that the number of vanpools serving Fresno County residents and businesses continues to grow. This is due in a large part to the support provided your organization and Fresno Council of Governments provides. This support, in the form of vehicles and user subsidies, has continued to attract more Fresno County residents to the option of vanpooling.

The attached report is in two parts; one reflects the use of the 70 vans purchased by FCRTA over the past three years, the other shows the 193 vanpools leaving or entering Fresno County. These vans provide 1,616 trips per day in and out of Fresno. These trips represent a savings to the riders as well as a benefit to the residents of Fresno County. The first benefit is the elimination of over 1,500 vehicles that the vanpool riders would have used if they were not vanpooling. Fewer cars on the roadway means an easier commute for those that do have to drive, fewer potentials for accidents and roads that last longer.

Those choosing to vanpool are providing a financial windfall to both Fresno Area Express and local businesses. The benefit to FAX comes in the form of approximately 2 million dollars in additional Federal funds that come directly to FAX. This funding works out to more than \$25,000 per year per vanpool. Businesses benefit from the increase in disposable income that each vanpool rider receives. A May 13<sup>th</sup>, 2014 AAA article states that a medium sedan costs 58.9 cents to operate. That being the case, the 3.9 million miles ridden by the vanpool riders each month represents a savings, or benefit of 23 million that ends up being spent at local establishments.

Lastly, the positive impact to the local air quality continues to be one of the deciding factors when the project is looked at by the San Joaquin Valley Air Pollution Control District. The Air District has been providing monthly \$25 vouchers to all vanpool riders. This was done with the goal of achieving a GHG benefit of \$20 per ton. The program has met and exceeded that goal. The per ton cost has now dropped to \$11 per ton.

Thank you for your continued support. Please let me know if you have any questions regarding the information I have provided.

Sincerely

  
Ronald Hughes  
Executive Director
